

THE CHRONICLE.

EDITED BY AN
ASSOCIATION OF "KNOW NOTHINGS."

CLARKSVILLE.

JULY, 6, 1855.

THE FIREMEN'S CELEBRATION.—The celebration of the Fourth, by our Firemen was one of the most brilliant tournaments that we have witnessed for many a day. The "Deluge Company" formed at the Eagle-house, on Strawberry Alley, at 8 o'clock and the "Eagle Company" on the square at the same hour. The Deluge mustered about forty men, dressed in black jackets, white pants, white shirts, and glazed caps. The Eagle turned out about fifty strong, the men being dressed as the Deluge men, except that their jackets were blue. Both companies were beautifully decorated with evergreen and flowers. The Deluge had a platform laid on its brakes, which was elegantly and otherwise ornamented, and upon it were seated two little musters and a couple of little misses to match. The "Franklin Hose Co." were out with the Deluge, and had their carriage very tastefully decorated.

The Eagle engine was surmounted by a platform about five feet square, and over this was a beautiful canopy, supported at the corners by uprights, covered with evergreen and flowers and through the centre of the canopy ran a staff bearing the American flag, and at each corner on top of the canopy was another small staff bearing the same colors. Under this canopy a little master and miss were seated upon velvet cushions on each side of the flag-staff. The Eagle's hose-carriage "Reindeer," was beautifully decorated, and followed the Engine. Between 8 and 9 o'clock the Deluge Company, appeared on the square, and the line of procession was formed, under the direction of Col. John A. Bailey, chief Marshal, assisted by Marshals Frank S. Besumant, and Charles M. Hittor. First came the Band-wagon drawn by four black horses, each attended by a groom. Each horse had a net-work cover upon him, and a large white plume upon his head. Then the Eagle Company and Engine came, followed by the "Reindeer" Hose Company, and carriage, then the Deluge Co., and Engine, followed by the Franklin Hose Company and carriage. The display in procession was beautiful and imposing.

After marching through the principal streets they repaired to the speaking ground, where addresses were made by Thos. W. Wisdom Esq., Rev. Mr. Baird, and Rev. J. T. Henderson. After the speaking the Fire Companies and the people proceeded to the dinner-table, where a beautiful barbecue was served up for them. After dinner the multitude dispersed, and the Firemen took the line of march and proceeded back to the square, where after the usual civilities to each other, they retired to their respective Engine-houses.

We regret that we have not time to make a more extended notice of the events of the day. It was pronounced by all hands to be a most elegant and delightful celebration of our Nation's Anniversary.

Our citizens are justly proud of their firemen, for an hundred feet looking men turned out on the fourth so accurately be found. The Brass Band, added very greatly to the pleasure of the occasion by their excellent music. Every one was delighted with it, and only regretted that they couldn't play all the time. Altogether the celebration was a splendid affair, and passed off without any accident or disorder.

MAJOR HENRY.—This distinguished orator addressed an American meeting on Wednesday night, in the Court House. We have heard Major Henry in his palmist days. We heard him in the exciting canvass of '40 and '44 when he spoke as none could speak, but those who have the blood of Patrick Henry in their veins. We have heard him in the advocate of his own claims before the people. We have heard him at the bar, when juries and judges would smile when he smiled, or melt in tears when he poured forth his strains of pathetic eloquence. We have heard him, when we thought he surpassed his own unrivaled excellencies. But never have we listened to such a speech, even from him as the one we heard that night. The facts were strong and well selected, the logic forcible and irresistible, and his audience were spell-bound by his rhetoric. It was not only a good speech, an excellent speech, a soul-stirring speech, it was more, it was a living speech, it will be forgotten by none, and the young men who heard him, will talk of it, to their children long after the great orator sleeps in his grave.

One Cent Reward.—RANAWAY from the undersigned about the middle of December last a negro boy named Dick Black—he was bound to me by the County Court of Stewart County, Tenn., until he became 21 years old, and was 13 years old, very light color, sandy hair, about 5 feet 10 inches high. I forewarn all persons from harboring said boy, and will pay the above reward for his delivery to me, one mile, north of New York, Tenn.

Wanted Immediately.—A young man as Clerk in the Book Store, June 22, 1855—J. C. O. FAXON.

Notice.—THE firm of W. S. McReynolds & Co., was this day dissolved by mutual consent. J. S. Faxon from the firm and W. N. Ureary comes in as a partner. JOHN L. GARROLL. June 22, 1855—3w

STRAYED.—TAKEN up by Andrew Smith, District No. 10, Montgomery County, on the 14 day of June 1855, one bay mare Mule, three years old, about thirteen hands high, black mane and tail—the former reached and the latter trimmed half way its length, marked with black stripes across the withers, and around the legs above the knees and fetlocks, and valued at \$75. WM. HARRISON, R. M. C. June 22, 1855—3w

BAKTER'S CELEBRATED Curling Fluid!—THIS preparation, which was discovered by Dr. Baxter during his travels in Europe in 1853, has given entire satisfaction to all who have tried it. It beautifies the hair, and cures the most annoying and ill-natured hair to hang in beautiful waves and ringlets. It has also been used with great success in restoring the hair, even where it has been removed by burns, scalds, or otherwise. The ingredients of which this fluid is composed will cost but every trifling sum, 25 or 50 cents. Persons desiring the receipt will have it forwarded to them on the receipt of one dollar. Address J. J. CALVIN. Knoxville, Tennessee. June 22, 1855—1m

50 Bushels Sweet Potatoes, for sale by A. J. JUDKINS, Agent. March 9, 1855—4f

We had the pleasure of attending the examination of the young ladies of the Fems' Academy, on last Friday evening. The promptness of the young ladies in answering the most difficult questions, satisfied every one of their diligence in prosecuting their studies and the care and fidelity of their teachers. The compositions were excellent, and gave evidence of more depth of thought, and better cultivation of mind than are usually exhibited by young ladies of the age. Every thing that we witnessed, was creditable both to the teachers, and to pupils. The next session of this institution, will commence on the 3d of September next. We hope to see a full school.

Don't forget the Barbecue at Pen Ridge on to-morrow. There will be some fine speaking and a fine dinner, enough of both to satisfy sensible men.

Last week we saw an admirable burlesque on the modern way of wearing bonnets. A lady promissed the streets with a servant, a coach five feet behind carrying her bonnet, Clarksville women against the world!

The Branch of the Bank of Tennessee at this place, declared a dividend on the 1st inst., for the past six months, of six per cent.

A new low-water boat, designed for this river was launched at Louisville, a few days ago, and will be completed about the middle of next month. She is owned by Capt. Northern, and others, and is named "R. L. Cobb."

LIST OF APPOINTMENTS

Made and agreed upon by the two candidates for Governor.

	July
Clinton,	6
Jackborough,	7
Tazewell,	9

BAKTER'S CELEBRATED

Curling Fluid!

THIS preparation, which was discovered by Dr. Baxter during his travels in Europe in 1853, has given entire satisfaction to all who have tried it. It beautifies the hair, and cures the most annoying and ill-natured hair to hang in beautiful waves and ringlets. It has also been used with great success in restoring the hair, even where it has been removed by burns, scalds, or otherwise. The ingredients of which this fluid is composed will cost but every trifling sum, 25 or 50 cents. Persons desiring the receipt will have it forwarded to them on the receipt of one dollar. Address J. J. CALVIN. Knoxville, Tennessee. June 22, 1855—1m

50 Bushels Sweet Potatoes,

for sale by A. J. JUDKINS, Agent. March 9, 1855—4f

YOUNG AMERICA.

THE above valuable "Corn Crusher" is constructed differently to all others now before the public. It is of such a nature that it will crush corn and cob together, to any degree of fineness, for your stock. It will make good meal; will turn out beautiful "grit" for table use; grind sausage-meat with great rapidity; will pulverize all kinds of dried roots; crushes apples as fast as one hand can throw them in the hopper; is a valuable bark-mill; is managed with one hand with ease; is very simple; will not get out of order; will last many years; and sold exceedingly low.

Planters & Stable-keepers.

Farmers, Stock-raisers, Proprietors of Hotels, and others, could not lay out their money to a better advantage, as it is now generally acknowledged that Corn Crushers save 25 to 30 per cent, of the amount of corn consumed. For the convenience of

LARGE AND SMALL FARMERS.

It is made of two sizes. No. 1 weighs near 400 pounds; is worked with one horse and one hand; will crush from 6 to 10 bushels corn and cob per hour; will make, from clear corn, two-thirds good meal, the remaining one-third being beautiful "grit" for table use, and is offered at \$75, all complete, and satisfaction warranted. In the construction of this Mill, the Proprietor's grand object has been to prevent all possible lateral motion, by firmly and permanently securing

The Revolving Portion.

In its proper position, without which precaution it certainly would soon wear out. His aim was also to make it so simple, and so easily managed, that it could be used by any one, and in any place, and in any season. It is a simple machine, which could not be surpassed by past or future inventions of the kind; but whether he has succeeded or not, it is for you to pronounce. It tells you, in plain terms, how it is constructed; what it will do; how managed; guarantees satisfaction; offers it at a low price; invites the public to a critical examination; places it within the reach of all; and certainly no honorable man can afford it on better terms.

PLANTERS AND STOCK-RAISERS.

The "Young America" can be fitted up in a few hours; is easily managed and understood; the external or convex grinder remains stationary, being supported by four heavy wheels bolted strongly into a box or sill below; the inner or convex grinder revolves, and is held firmly and securely in its proper position by a cast-iron box and gudgeon above, and an ink and gudgeon below, which actually prevents all lateral motion, the great desideratum never before obtained. The shaft or lever to which the horse applied works over your head, entirely out of the way of the driver, or feeder, or looker-on. The crushed stuff is all received on an inclined floor, delivering it into a shoe, so that it may be caught in a half-bushel or less. It is easily regulated from below by a screw. The whole does not get out of order, and is simple, and neat at all times to get out of order; is portable, and is sold at a price which no man will object to.

Now, Farmers.

How does your pulse beat concerning this Southern invention? Does it fill the bill? If you want one, send term, or Ellis Moore & Co., Manufacturers, at Nashville, Tenn., will cause one to be sent to you forthwith; or give references, order the Mill, and pay for it as it is received. No. 2 sell for \$75. This is a reasonable course as the Proprietor knows how to pursue.

AGENTS TO SELL MILLS.

are wanted in all parts of the Union, who will at the "Young America" and the understanding. To each such I will give "an open field and a fair fight," ask no notes, and only require \$35 to commence on, which shall be applied for said agent, and the convenience of agent and the purchasing parties. For full information, address the Proprietor, at Nashville or Shelbyville, Tenn., and you can get all particulars.

J. P. DRUMGOOLE.

Shelbyville, Tenn., June 15, 1855—1y.

Oil! Oil! Oil!

We are now in receipt of a fresh lot of Lard and Lardseed Oil.

E. R. W. THOMAS & CO. June 15, 1855—4f

SUPERIOR CUTLERY.

We wish particularly to draw the attention of our friends to our recent purchase of fine pocket cutlery. Any gentleman wishing a genuine Knive can find it at our house. We have an elegant assortment of Pocket Knives and Razors. E. R. W. THOMAS & CO. June 15, 1855—4f

Cheap Light!

We would say to the Public, that we have just received another large supply of the celebrated Burning Fluid Lamps, which are cheap, durable, and neat, and stand unrivaled. The Burning Fluid which supplies the Lamps, is entirely free from grease, gives a soft, clear, brilliant light, is much cheaper than candles and not at all explosive—the Lamps so constructed that you can have a blaze as small as a taper, or larger than a candle—need no snuffing, and one ball of Candles will last a life time. We have every variety that a purchaser could wish, and we would say to those who wish to try them, that they can use them for one week, and if not satisfied they can return them. Thus far they have given general satisfaction. We invite you to try them.

Franklin Street, Clarksville, Tenn.

N. B. We keep constantly on hand, a large supply of the burning fluid.

June 8, 1855—1y
